REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

In light of applicants' amendment of April 23, 2004 and upon reconsideration the rejections under 35 USC 103 and 112 have been withdrawn. The prior art neither teaches nor suggest the particular reaction as presently recited in the claims. Obtaining the claimed dilutor products from dichloride starting materials where ketene is present with a C-H at the alpha position is not taught or described in the prior art. Nor is there a teaching or suggestion to modify any reference to obtain the claimed invention. As to the 112 rejection, the R substituents are not critical to the key reaction mechanism and reactive site.

Accordingly, claims 1-20 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
